

Energy Strategy Group

Wind farms. Biodiesel. Ethanol. Clean coal initiatives. The Midwest stands in an unparalleled position to capitalize on these markets. Innovative policy and incentives at the state and federal level are creating a unique window of opportunity for growth in the energy industry. Our access to high quality grains, robust transportation links, and a powerful workforce make us a prime location for energy industry growth.

Purpose:

The Energy Strategy Group will be charged with helping the region capitalize on the renewable energy industry. This Group will help identify potential sites, and make community development ready for renewable energy projects such as ethanol, biodiesel, and biomass plants, and wind farms.

Duties:

Some of the duties for the Energy Strategy Group include:

- Set policy for plant development for communities
- Lobby State and Federal Government for additional dollars for projects
- Promote renewable energy
- Collaborate with existing agencies and groups currently promoting renewable energy. (Illinois Soybean Association, Illinois Renewable Fuels Association, National Biodiesel Boards, as examples)

124 SW Adams, Suite 300 Peoria, IL 61602-1388
